

# Azentio Factoring

## Asset based lending

### Maximize returns from financial deals

Making your business grow is all about making the perfect moves while balancing the challenges. The complex task of keeping a business profitable as credits rise in the midst of intense competition requires insights into different areas. An integrated approach is possible only if you have the right information for making the right moves. Seamless and useful information comes only with the right tools.

Azentio Asset based lending, a comprehensive module of Azentio Factor/SQL®, empowers commercial finance organizations like yours whether you want to finance your customer's working capital, business expansion, refinance a debt, fund an acquisition or securitize receivables. It has the precise gears to customize deals, monitor client portfolios, analyze opportunities and track receivables – to build a perfectly robust business.

## The Azentio Asset based lending edge

Experience across a wide variety of customers

Ready to run application

Solutions across all asset classes

Credited with implementations across industries

## Functionalities that boost productivity
