

## Azentio Transportation & Vendor Payment

### Smart management of transportation related payments

For the Factoring business, choosing the right software tool is critical for maintaining a positive cash flow for your transportation partners, be it carriers, shippers or third party vendors – so that you have more time to focus on growing your core business. It should also have the inherent capabilities to minimize costs in the longer run.

The Azentio Transportation & Vendor Payment module in Azentio Factoring a.k.a. Factor/SQL®, a leading factoring software solution, gives the flexibility to factor in managing invoices of carriers, brokers and clients and also, the facility to provide advances to clients, carriers or third-party vendors.

### The Azentio transportation & vendor payment solution edge

Manage and control risk by making direct payments

Monitor brokers, shippers, carriers and their invoices

Generate invoices from carrier's bill of lading; Control exposure to debtors

Quickly approve loads for your carrier clients

## The solution allows you to easily

- Manage carriers' invoices better; set up default payment option with override options.
- Create a rating system for freight brokers, facilitating quick credit approval.
- Automate client payment calculation based on carrier inputs.
- Monitor advances, payments, commissions, transactions, advances and reserves for brokers, shippers, carriers and clients.
- Track dates, reserves, and schedule advances for carriers and vendors as well as adjust funds between the clients and carriers.
