

A woman with long dark hair, wearing a white t-shirt and blue jeans, is sitting on a light-colored sofa. She is smiling and looking down at a dark-colored smartphone she is holding with both hands. The background is a light-colored, textured wall.

Azentio Digital Banking Platform for Mobile Banking

Azentio's Mobile Banking solution offers an intuitive, simplified, versatile, and secure mobile banking experience allowing access to daily banking operations without the time-consuming process of going to a branch, thus bringing convenience to banks' customers by enabling them to interact with their finances and engage with their bank online and in real-time.

Our mobile banking solution provides a responsive UI design and is cross-platform and cross-browser compatible, which provides the BFIs' customers with the ability to either use different platforms and web browsers or to download a hybrid mobile app on their smartphones and tablets. Although this solution can be installed as a standalone product, its full power can be realized when adopted within an omnichannel architecture.

Core functions
